Round 6

2/12/2010

Item Name	Item Description	Category
Disposable Tableware	Products used in dining, such as drink ware and dishware, including but not limited to cups, plates, bowls, and serving platters, and that are designed for one-time use. This item does not include disposable cutlery, which is a separate item.	Food Services/Cafeteria
Expanded Polystyrene (EPS) Foam Recycling Products	Products formulated to dissolve EPS foam to reduce the volume of recycled or discarded EPS items.	No Appropriate Category
Heat Transfer Fluids	Products with high thermal capacities used to facilitate the transfer of heat from one location to another, including coolants or refrigerants for use in HVAC applications, internal combustion engines, personal cooling devices, thermal energy storage, or other heating or cooling closed-loops.	Vehicle and Equipment Maintenance
Ink Removers and Cleaners	Chemical products designed to remove ink, haze, glaze, and other residual ink contaminants from the surfaces of equipment, such as rollers, used in the textile and printing industries.	Vehicle and Equipment Maintenance
Mulch and Compost Materials	Products designed to provide a protective covering placed over the soil, primarily to keep down weeds and to improve the appearance of landscaping. Compost is the aerobically decomposed remnants of organic materials used in gardening and agriculture as a soil amendment, and commercially by the landscaping and container nursery industries.	Grounds Maintenance
Multipurpose Lubricants	Products designed to provide lubrication under a variety of conditions and in a variety of industrial settings to prevent friction or rust. Greases, which are lubricants composed of oils thickened to a semisolid or solid consistency using soaps, polymers or other solids, or other thickeners, are not included in this item. In addition, task-specific lubricants, such as chain and cable lubricants and gear lubricants, are not included in this item.	Vehicle and Equipment Maintenance
Office Paper	Paper products used in office printer and copier applications, writing, and coated papers for publications.	No Appropriate Category
Topical Pain Relief Products	Products that can be balms, creams and other topical treatments used for the relief of muscle, joint, headache, and nerve pain, as well as sprains, bruises, swelling, and other aches.	No Appropriate Category
Turbine Drip Oils	Products that are lubricants for use in drip lubrication systems for water well line shaft bearings, water turbine bearings for irrigation pumps, and other turbine bearing applications.	Vehicle and Equipment Maintenance
